2. 1) What are your goals for the PCPRC this year?

---

---

---

---

---

3. 2) How and what would you, as an individual member, like to contribute to advancing those goals this year? (How can the DOI and/or PCPRC co-chairs better support your active engagement?)

## Potential Topics/Priorities

Based on feedback received at the Feb PCPRC meeting, and a scan of past issues members have flagged for future discussion, please let us know your interest in exploring these or any other topics.

4. 3) What issues or topics would you like to see the Collaborative address this year? (For any item select, please indicate the priority level- from low to high)

## Other Reports or Resources

Since the Collaborative was formed in 2019, the primary care landscape has continued to evolve- at the state and national level. Are there any specific state or national activities, and/or associated resources (organizations, speakers), that you would be interested in featuring at an upcoming PCPRC meeting? Some examples are listed below (question 5), but feel free to add your own (using the free text field in question 6).

## 6. 5) Are there reports or resources that you would like to learn more about at PCPRC meetings? (Select all that apply)

*Check all that apply.*

- ☐ Implementation of National Academy of Medicine Primary Care Report
- ☐ Information about other state primary care investment initiatives
- ☐ Deeper dives into CMS/CMMI activities related to primary care/payment reform
- ☐ Making Care Primary
- ☐ HCPF activities - APM design updates; ACC 3.0; Integrated Care Delivery work (HB22-1302); maternity and child APMs
- ☐ Other: \_\_\_\_\_

## Aligned Primary Care APM Parameters (HB 22-1325) - Ongoing Implementation

Over the course of 2022-2023, the Division engaged the PCPRC and other stakeholders to develop Insurance Regulation 4-2-96, which establishes aligned parameters for primary care APMs in four areas: 1) risk adjustment; 2) patient attribution; 3) core competencies; and 4) quality measures. Moving forward, the Collaborative is tasked with annually reviewing the aligned APMs parameters developed by the Division. The Division is interested in getting member's input/feedback on the best way to structure the review process.

7. 6) What are the best mechanisms to facilitate the PCPRC's review of the aligned APM parameters? Utilize standing PCPRC meetings vs additional meeting sessions? Options for written feedback vs open discussion?

---

---

---

---

---

8. 7) What are some key considerations for the aligned APM parameters (individually or collectively) in the short-term? Medium-term? Long-term?

---

---

---

---

---

9. 8) Are the other topics, speakers, resources, articles, etc. that you would like to share/hear about at an upcoming meeting?

---

---

---

---

---

10. 9) Please feel free to share any other thoughts or ideas you might have related to the Collaborative (i.e., operations, meeting structure, the annual report, membership recruitment, etc.)
