ACTION REQUIRED: 2025 Meeting Schedule and Registration Link

Due to ongoing Zoom security issues, DORA is requiring all public meetings to change from the Zoom “meeting” format to the “webinar” format. This change will require board members to re-register for the December meeting. *Please ensure you use your board email account to register for the meeting so that you will show up correctly as a panelist at the meeting.*

Below is the date, time, and updated registration link for the December Board meeting. Since the registration link has changed, please re-register for the December meeting using the new link. Maddie Davis has also updated the calendar hold with the new registration link.

Cybersecurity Training

Board members should be checking their state Gmail account each month to complete the mandatory cybersecurity training modules through SOC Learns. If you need a reminder on the details of the trainings, see the [slides](#) from the April 2025 Board Meeting. If you have not received emails to your state Gmail assigning you the trainings, please contact Sara Bencic and Maddie Davis so we can assist you.
